STRENGTHS

- Explosive acceleration
- High pressing work rate
- Near-post finishing instinct
- Strong 1v1 dribbling
- Direct attacking mindset
- Aggressive off-ball runs
- Effective in transition play

AREAS OF DEVELOPMENT

- Defensive positioning
- Physical strength in the contact duels
- Weak-foot finishing consistency

TECHNICAL

Finishing – A strong near-post execution.
First Touch – Very good under pressure, especially in wide channels.
Crossing/Cut-backs – Can deliver early balls after beating defenders.
Dribbling (1v1) – Can isolate full-backs and attacking outside shoulder.
Ball Carrying – Comfortable driving at defenders with close control at pace.

TACTICAL

Pressing Awareness – Easily recognizes triggers.
Transition Recognition – She easily identifies counter-attacking moments.
Spatial Awareness – Understands width and how to stretch defensive lines.
Off-ball Movement – Times near-post and diagonal runs effectively.

PHYSICAL

Pace – Can separate from defenders in the open spaces.
Agility – Sharp directional changes in 1v1 situations.
Strength – Competitive but can improve upper-body strength.
Acceleration – Explosive over first 5–10 meters.
Endurance – Sustains high-intensity runs.

PSYCHOLOGICAL

Resilience – Responds positively after missed chances.
Competitiveness – Engages fully in duels and pressing.
Confidence – Willing to take responsibility in attacking moments and is always looking to penetrate.
Work Ethic – Contributes defensively and maintains effort levels.

OFFENSIVE CONTRIBUTION

Transition Efficiency – Highly effective in counter-attacks, she uses acceleration to exploit all available space before defensive recovery.

1v1 Attacking Threat – Consistently looks to beat and isolate full-backs, creating numerical superiority while in the wide areas.

Vertical Movement – Makes aggressive runs behind the opposition's defensive line, stretching 'tight' defenses and opens their central spaces.

DEFENSIVE CONTRIBUTION

Counter-Press Reaction – Responds quickly after losing possession, as she always attempts to disrupt immediate opposition transition.

Recovery Work Rate – She tracks back to wide defensive zones providing support to full-back and maintain team shape.

High Press Engagement – Acts as an active first defender, applying pressure on any opposition build-up.

PROJECTION

Olivia Oldt projects as a wide forward who contributes goals and assists in aggressive, fast-tempo systems. Having perfected tactical discipline and physical strength, she can emerge as a dependable starter in the higher levels of competition.

She profiles best in:

- 4-3-3 as a wide forward
- 4-2-3-1 as an inverted winger
- Transition-heavy attacking teams
